

Dr. Bill's List of Items That You Might Find Useful! (...to produce a quality radio program!)

(Keep in mind, these are items I use personally, and have no connection, or affiliation with, you may find other tools that work well for you, your mileage may vary!)

Audio-Technica ATR2100-USB Cardioid Dynamic USB/XLR Microphone

Price: Approximately \$64.00 on Amazon

<https://www.amazon.com/Audio-Technica-ATR2100-USB-Cardioid-Dynamic-Microphone/dp/B004QJOZS4>

Great for use with your computer to record directly into Audacity (for one person only... to use multiple mics, see the mixer option below!)

Aokeo Professional Microphone Pop Filter Mask Shield

Price Range (usually) between: \$6.00 - \$10.00

<https://www.amazon.com/Professional-Microphone-Stabilizing-Recordings-Broadcasting/dp/B01N21H9WY>

Get a "clean" recording and remove those "pops" from the "P" sound when you record!

Tripod Mic Stand, with "Boom"

Price Range (usually) between: \$17.00 - \$25.00

Holds mic steady for "hands free" use with no "mic noise"

BEHRINGER XENYX Q802USB

NOTE: Only if you need to mix multiple speakers (like guests) on a program

<https://www.amazon.com/Behringer-Q802USB-BEHRINGER-XENYX/dp/B008O517IC>

Second note... do not use with a USB mic such as mentioned above! Instead, use standard, low impedance mics like the Shure SM58LC Cardioid Dynamic Microphone... they plug into the mixer... then the mixer plugs into the computer's USB port!

Headphones

Price Range (usually) between: \$10.00 - \$125.00

So you can clear hear your audio "mix" clearly, and privately, favored by spouses!

MP3tag Software

Price: **FREE!**

<http://www.mp3tag.de/en/>

Add ID3 tags to your MP3 files so folks can see whose program is on the air when they are played on WOFR.org!

Audacity Audio Recorder/Editor

Price: **FREE!**

<http://audacity.sourceforge.net/>

Excellent Open Source software for recording and producing your program! (See our Tutorials!)

e-Sword Computer Based Bible

Price: **FREE!**

<http://www.e-sword.net/>

The **BEST** electronic Bible...and it is **FREE!**

Royalty Free Audio Loops (Music for Backgrounds)

Lot's of places on the Internet, like:

<https://www.bensound.com/>

Do a Google search on "Royalty Free Audio Loops"
